FROM 1969 IMPROVING DAY BY DAY

Here the most innovative machinery 70 looms (Jacquard and dobby) and digital printing is concentrated, with a staff of 140 people.

WHAT MAKES IT DIFFERENT COMERSAN?

We offer quality, design, brand, and service creation

We adapt to market demand and we have a fast response.

Our constant coupon service for international sales, ensures that our customers can buy meters without having to buy waushole pieces. Also we have a company in Miami to offer this service. This is mainly possible due to the large size of Comersan warehouse, allowing us to be quick. The pieces are well labeled and sorted by facilitating the selection of each product and sending fabric cuts anywhere in Europe in just 3 days.

MADE IN SPAIN WITH R & D + I

Comersan provides its customers **quality** thanks to textile production control before, during and after each process, even this be a generator of local employment.

R & D +

Continuous research of the technicians from Comersan result in a **novel products** with superb properties for **industrial use** in terms to washing, pilling, abrasion, lightfastness, by providing fire-retardant treatments, Indanthren use of colors, blockout, resinated, stain resistant, integrated in the textile as a heated systems technologies ... that make these fabrics ideal for customers in restaurants, hotels, etc.

Comersan takes care of each and every one of the processes of product development, from design of the collection, to the final packaging of the product, including manufacture of tissue and stock production. This ensures the high quality of textile products.

temperature and humidity for best performance of equipment, but also removes any dirt,

Quality certificate Öko-Tex: All our fabrics have this certificate, which guarantees the absence of harmful substances in textiles.s.

Jorge Sanjuan Perez, CEO of Comersan S.A. He completed the project on an industry materialized Comersan current facilities.

WE CARE ABOUT DETAILS

Comersan was founded in 1969 from the hand of businessman Jose Sanjuan Sanjuan as a specialist in the manufacture and distribution of fabrics for upholstery and decoration business.

In 1988 he began his first Comersan sales outside Spain, to consolidate later as export and international business. Currently, Comersan has presence and sells its products in more than 80 countries.

In 2002 it makes a strong economic investment to modernize and expand its facilities over 30,000 m2 located in Cocentaina (Alicante), where all the processes of design, production and quality control are performed.

100% made in Spain. This allows Comersan take strong economic momentum and set its industrial activity, better controlling product quality and providing faster service.

Jorge Sanjuan Perez, CEO of Comersan S.A.
